WELCOME TO HOME SCIENCE DEPARTMENT

ASST.PROF. Monalisa Jena, MA
Head of the Department

Home Science was introduced as a pass subject in undergraduate course (B.A) when the college was granted permission for Degree course in Arts from the session 1996-97 by the Department of Higher Education ,Govt. Of Odisha .Home Science as Honors subject was included in the college from the session 2010-2011. Since the inception, Department of Home Science is committed to impart quality education in Home Science so as equip the students with novel challenges in their life .The Department has total of the full time faculty members - Asst. Prof Mrs. Monalisa Jena (HOD),Asst. Prof Shuvalina Behera and Demo. Miss Kamalini Gidi . Academic performance of the students of the Department has been excellent . Even the students of this Department have got position in University Examinations every year .The placement record of the students who have completed their undergraduate course deserves a very special mention. Most of the pass out students of the Department have secured admission in post graduate course in various reputed Universities.

WHAT IS HOME SCIENCE?

- As the name suggests, Home Science is concerned with the home, health and happiness of all the people living in it. As a field of specialization, Home Science draws its content from courses in both science and arts. Thus, representing an interdisciplinary field that prepares young learners for the two most important goals in their lives – caring for their home and family as well as preparing for a career or vocation in life. Hence, its scope extends to activities associated with setting home based enterprises as well as consultancies. Today, men and women share the responsibility of a home and family equally. They need an equal amount of preparation in making the best use of the resources available to make their lives comfortable. We discover the scope of science and arts behind Home Science and the different professional avenues available to us after being specialized in this field. Its OBJECTIVES :
- Explain the meaning and importance of Home Science.
- Establish the relevance of Home Science to men and women.
- present some facts about Home Science as a discipline and profession.
- Identify various academic and vocational opportunities available to us after studying Home Science.

MISSION AND VISION OF THE DEPARTMENT

VISION

- Home Science covers a few areas of specialization such as Food and nutrition, Communication and Extension, Resource Management, Human Development, Fabric and apparel science. We learn and develop good interpersonal relationships within and outside the family. We also learn to manage our resources like time, energy and money so that we get maximum satisfaction. Home Science also involves learning the skills intending all this useful to our family or community, especially the underprivileged for better life.

MISSION

- We value our traditional knowledge, experiences offered to us by our parents and grandparents. We should continue and value this. The new advance in science and technology and management equip us better and deal with the changing social and economic environment and meet the challenges of the 21st century.

FUTURE PLAN

- Home Science as a field of study is application oriented and prepares one for many professions. After completing graduation in Home Science one can go for courses like Masters in Home science, Fashion Designing, Dietetics, Counseling, B Ed, Social Work, development studies, entrepreneurship, Mass Communication, Catering Technology etc.

FACULTY MEMBERS

At present the total number of sanctioned teaching staff is 2.

EXAMINATION SYSTEM OF THE DEPARTMENT

Method of Evaluation

The Department makes continuous evaluation of students through internal tests, seminars, assignments and University Examination.

Examination system

Examination is an integral part of curriculum design where potentialities of the young students are evaluated. Examinations invoke an instant fear in the students mind along with a practice for better result. But the right approach in the process of assessment can help to reduce the stress and strain in the minds of students and make them confident to face any examination that come in their way.

Keeping this in view, the prevailing examination system of the college is classified as follows.

➤ Departmental Unit Test

Every year our college conducts Departmental Unit Test to evaluate students' performance enrichment periodically.

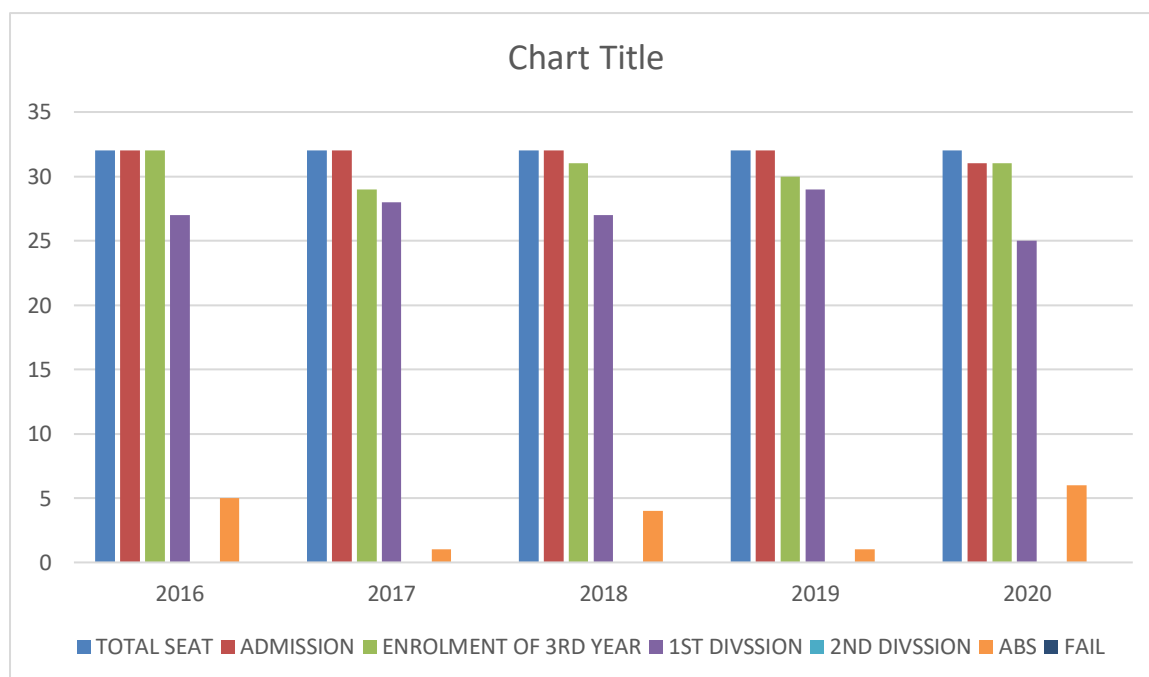

➤ University Exam

In the prevailing 3 years degree course, the university holds Internal and Semester Examinations for promotion to the next higher class. There are also provisions for back paper clearance for final award of degree certificate.

PERFORMANCE OF HONOURS STUDENTS LAST FOUR YEARS

BATCH	TOTAL SEAT	ADDISSION	ENROLMENT OF 3 RD YEAR	1 ST DIVSSION	2 ND DIVSSION	ABS	FAIL

TRADITIONAL FOOD FESTIVAL OF ODISHA

Organized by Department of Home Science
Remuna Degree College, Remuna, Balasore

With an aim to reintegrate value back into food systems and food culture and make communities aware of the importance of reviving their traditional food practices and production involving the students, a food festival under the banner "Traditional Food Festival of Odisha" has been organised in the college under the aegis of the Department of Home Science on 21st October, 2021 Principal Mrs. Jayanti Nayak inaugurated the festival. 14 persons from the community and 10 students of the college participated in the festival. They showcased their various traditional food dishes prepared by themselves. The participants explained the process of local cuisine sharing their experiences with the visitors. The Principal and staff members were served the dishes who expressed their surprise not only at the variety of local traditional food but also because of how tasty the dishes were. Among the participants Ranjit Bisoi, +3 1st year Arts student of the college was awarded the First Prize, Mrs Malati Mohanty of sasanbad village was awarded the 2nd Prize while Mrs Lakshmi Barik and Amrutanshu Padhi, +3 2nd year science were jointly awarded 3rd Prize. Mrs Monalisa Jena, HOD, Home Science Department supervised the Program and Miss Shuvalina Behera, Lecturer in Home Science extended help and cooperation in coming off of the Programme.

PATICIPATE IN SCIENCE EXHIBITION

PROPOSALS TO PURSUE

After identifying the grey areas in the department, we are committed to pursue.....

- 1. To motivate the students to be job oriented**
- 2. To make teaching more students friendly**
- 3. Sustaining and Expediting small group collaborative learning**
- 4. To Improvement skill development of students and hospitalities**
- 5. To motivate students for higher studies**
- 6. To provide ICT teaching facility**

Achievements:

All round development of body, mind & soul of the learners . The departments trying its best for new innovation & research.
